Profile

Frontend Developer with experience designing responsive, user-centered interfaces focused on UX principles. Skilled in building modern web applications using React, Next.js, and Bootstrap, and working with component libraries such as Material UI, Radix UI, and Lucide. Experienced in integrating REST APIs and delivering scalable, maintainable solutions.

I bring a unique background as an Industrial Engineer with 2 years of experience as a bilingual Logistics Coordinator and 2 years as a bilingual Customer Service Agent, combining technical skills with strong problem-solving, communication, and operational efficiency expertise.

Currently advancing my career path toward becoming a Full Stack Software Engineer.

Work Experience

Frontend Web Developer | Freelance

April 2025 - Present

- Developed a responsive web catalog for a local perfume shop in Barranquilla, improving product visibility and user experience.
 - Contributed to brand growth by designing and implementing strategic, user-centered responsive interfaces using React (Components & Hooks), Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Git, and Node.js.
 - Built interactive web-based games using JavaScript to implement programming logic and strengthen problem-solving skills.
-

Logistic Coordinator | CX data Entry Coordinator | EDI Specialist

Lean Solutions Group, Feb 2024 - Present

- Coordinated logistics for U.S.-based clients, ensuring seamless operations across multiple ports and schedules.
 - Proactively solved operational issues under tight deadlines while maintaining high-quality standards.
 - Collaborated with teams and clients to manage data and improve efficiency using tools like Trinium.
 - Strengthened multitasking and time management skills by handling multiple priorities and time-sensitive tasks effectively.
-

Customer Service Agent | Real State

Solvo Global, March 2022 - Feb 2024

- Provided high-quality customer support to U.S.-based clients, addressing inquiries and resolving issues promptly.
- Managed a high volume of client communications while maintaining exceptional service standards.
- Delivered detailed information about property listings, enhancing client engagement and satisfaction.
- Strengthened communication skills by interacting daily with diverse audiences in English.

Virtual Assistant | Freelance

Upwork, April 2025 - December 2025

- Supported brand growth through strategic development and content planning
Created engaging and persuasive video scripts tailored for marketing goals
- Managed end-to-end recruitment of freelancers, ensuring team alignment with project needs
- Delivered reliable and high-quality administrative support, optimizing client operations

EcoMetal Recyclers | Accounting Assistant | Barranquilla, Colombia

Recumact, January 2020 - March 2021

- Oversaw financial records and cash flow tracking using advanced Excel (Amortization table, payment and collection schedule, Excel Graphic reports, dynamic tables and formulas application).
- Organized and streamlined data entry processes for better financial reporting.
- Supported daily operations for a growing family business, demonstrating resourcefulness and efficiency

Administrative Assistant | Service Contract

Servicios Médicos Olympus, January 2021 - March 2022

- Managed databases and registered client contracts with Health Provider Entities (EPS) using Excel.
- Ensured accuracy and confidentiality in data management for COVID-19 test reporting.
- Supported administrative processes, showcasing adaptability and attention to detail.
